## *Scholarship Program 2023*

January 2023

*Dear Sisters and AHEPA Family,*

*The Daughters of Penelope Foundation, Inc. was founded in 1983 to promote the social, ethical, philanthropic, cultural, educational, and intellectual interests of its members. The Foundation also preserves and promotes the ideals and traditions of Hellenism and supports the programs and goals of the Daughters of Penelope.*

*Each year the Daughters of Penelope Foundation, Inc. makes scholarships available to students because of the generosity of our past and present private donors, as well as from the benevolence of members/chapters throughout the world.*

*This year we are celebrating our 40<sup>th</sup> Anniversary and are delighted to share some exciting news. First, in celebration of our 40<sup>th</sup> Anniversary we will be providing 31 Scholarships totaling \$40,000. Secondly, we will be accepting applications for both women and men making our process more inclusive. Lastly, we are working on ways to make the application process more efficient for our applicants by researching and acquiring information with the goal of making things more streamlined in the future.*

*In closing, I would like to express on behalf of the Foundation how grateful we are to our chapters and members for their consistent commitment to the enrichment of the scholarship program and allowing it to blossom year after year. Thanks to the generosity of everyone over the past 39 years we have been able to provide over a half a million dollars in scholarships to so many worthy recipients pursuing their ambitions in many diverse educational endeavors.*

*Sincerely in Theta Pi,  
Anna-Helene Grossomanides  
Daughters of Penelope Foundation Inc.
